Panel 4

The Latin-America nuclearization: diversifying the energy matrix.

South America is a nuclear weapons free zone, which is regulated by Tlatelolco Treaty. Only Brazil and Argentina have nuclear plants and have a clear and opened policy on this matter. Recently both nations have announced the development of new nuclear plants. It is well known that a nuclear policy demand a technical and political legal legislations. The main concern today in the region is related with the debate called “nuclear renaissance”.

Key questions:

* It is possible to initiate an energy nuclearization at the region?

* How it viable a diversification of the energy matrix?
